

Museum Collections Technician

Collections Technician researches, catalogues, and manages artifacts & archival material

The Atlas Coal Mine National Historic Site is the most complete coal mining museum in Canada, preserving an intact historic landscape, buildings, machinery, objects, and archives.

We seek a student interested in heritage & museum practices who can learn and apply the principles of collections management.

Must be comfortable working with the public & making presentations.

Projects in 2017 will focus on historic structures, recent donations, archives, conservation treatments, and exhibit renewal & maintenance.

Training in museum studies is a strong advantage. Coursework in history, science, math, library science, or technology is an asset. We are looking for a good work ethic, adaptability, mechanical aptitude, and personal leadership skills. Mastery of Microsoft Access, and attention to detail are important attributes of the candidate. The student must be physically fit, and relish the challenge of working outside. A car necessary as we are located 15 minutes east of Drumheller. Must have at least one year post-secondary and plan to return to studies in the fall.

Do it! Our history is deep!

Job Term: May 1st to Sept 4th, 2017

Wage: \$15.00 / hour

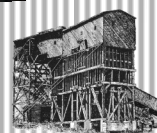

Application Deadline extended to March 13, 2017
